A. COURSE DESCRIPTION

A historical and thematic exploration of the contributions made to the Tradition by writers of the first seven centuries known as the "Fathers of the Church". Attention will be paid to their contributions in such areas as the formation of the biblical canon, the development of Christian doctrine, and the picture of Christian life in the ancient period.

B. GOALS

This course will assist students to grow in the following knowledge, skills and attitudes:

Knowledge:

To learn of the key writers and theologians from the ancient period of the Church, through study of their lives, writings, and historical context.

To understand the contribution rendered to the development of theology in the first centuries.

Skills:

To be able to integrate the various realms of theology as found within the ancient Church.

To be able to enter into theological dialogue with the ancient wisdom of the Fathers in the Church and to see its connections to theological and pastoral issues today.

To be able to apply the historical-critical method to the ancient texts of the Patristic Era.

To situate the writings in their context and to draw out their theological significance.

Attitudes:

To embrace a sense of wonder in the mysteries of the faith and to accept that our comprehension will never be complete in light of the nature of theology.

To embrace the ecumenical and universal spirit found in the ancient Christian Church.

To grow in recognition of the benefit of shared dialogue and shared exploration of theological issues.

C. ASSESSMENTS

Mid-term Exam, **February 16, 2024** (30%).

A Final Exam will take place during the exam period (40%)

Class participation and Engagement (30%). Class participation and engagement is an important component of this course. Therefore, it is expected that all students will be 'active' participants in this course. This means attending all classes, being actively involved in class activities and thoughtful discussion, and completing all assignments.

Your participation grade will be significantly influenced by your active involvement in class, and the quality of that involvement. Lack of participation, or 'negative participation', will also significantly influence your participation grade (but in a negative way)! And just so you are aware of the types of activities or behaviours that will be considered 'negative' class participation, they include the following: missing classes, talking to classmates about things that are not a contribution to the class discussion, general nonparticipation in or disruption of class/class activities, sleeping during class, coming to class late or leaving early, and distracted use of any of the following electronic devices: cell phones, smart watches, computers, and other electronic devices. Computers may be used in class but **ONLY** for note taking purposes. Evidence of using the computer for anything other than class work will be considered negative class participation.
