F. UNIVERSITY REGULATIONS AND SUPPORT SERVICES

Students are responsible for knowing the University's academic policies and regulations and any particularities of their own course of study. Ignorance of these policies is not an excuse for any violation thereof. The following policies are particularly important to note:

Accommodations for Tests/Examinations: Students with disabilities work with Accessibility Services which provides recommendations for accommodation based on medical documentation or psychological and cognitive testing. The accommodation policy can be found here:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic%20Accommodation_disabilities.pdf

Students are responsible for seeking accommodation with appropriate documentation, prior to writing tests/examinations, if they are of the view that their performance may be affected by extenuating circumstances. **All students requiring academic accommodations for tests and examinations must use the services offered through King's University College.**

Scholastic Offences: Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, is posted at http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf It is expected that students will submit work that is truly their own, completed without external assistance (human or artificial) except as explicitly permitted by the course instructor.

All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system; see <https://elearningtoolkit.uwo.ca/tools/Originality Reports - TurnItIn.html>. Please note that Turnitin analysis now also includes AI detection.

St. Peter's Seminary is committed to fostering a culture of professionalism, honesty, and academic integrity, and all members of our community—faculty, staff, and students—have a role to play in promoting an ethical learning environment. Furthermore, through the work they submit for academic evaluation, students develop important habits of critical thinking, independent inquiry, and creativity. Thus, it is expected that students will submit work that is truly their own, completed without external assistance (human or artificial) except as explicitly permitted by the course instructor.

Within this course, use of artificial intelligence (AI) tools [such as Chat GPT] is not permitted for written work submitted for evaluation.

Copyright re: Course Material: Lectures and course materials, including power point presentations, tests, outlines, and similar materials are protected by copyright. Faculty Members

are the exclusive owner of copyright in those materials they create. Students may take notes and make copies for their own use. Students may not allow others to reproduce or distribute lecture notes and course materials publicly (whether or not a fee is charged) without the express written consent of a Faculty Member. Similarly, students own copyright in their own original papers and exam essays. If a faculty member is interested in posting a student's answers or papers on the course web site he/she should ask for the student's written permission. (Commercial use of Course material - <http://umd.edu/legal/commercial.html>)

Scholarly Citation: According to the policy adopted by the faculty of St. Peter's Seminary, all citations, references and bibliographies in written assignments are to follow the formatting prescribed in the Chicago/Turabian Manual of Style. Footnotes are to be used, rather than author-date references in the body of the text. Please review and consult the summary provided by Kenrick-Glennon Seminary at <https://www.kenrick.edu/wp-content/uploads/Guide-to-Academic-Papers-and-Citations.pdf> for further information.

Submission of Assignments: It is the responsibility of the student to organize his or her work so that the assignments are completed on time. A penalty of 10% of the value of the assignment will be deducted for each day it is overdue without permission.

Students who are unable to hand in assignments or take examinations for legitimate reasons must consult with the instructor. If the reason is medical, students may be required to provide a note from a doctor. Ordinarily, all assignments and exams will be made up at a later date. In certain circumstances, the final grading scheme may be re-weighted if the missed assignment is of a low weight.

Selection and Registration of Courses: Students are responsible for ensuring that their selection of courses is appropriate and accurately recorded, that all prerequisite course(s) have been successfully completed, and that they are aware of any anti-requisite course(s) that they have taken.

Classroom Conduct: Students are expected to conduct themselves with respect for everyone and with professionalism in all classroom activities. Laptops and other electronic devices may be used for classroom academic activities only. The use of such devices must always be in accord with the common good of the whole learning community as specified by the instructor.
